

The Columbus Chamber of Commerce and USI Insurance Services

The Columbus Chamber Health Advantage (CCHA) Save money on Employee Benefits now!

The Columbus Chamber and USI Insurance Services have each helped many clients in the greater Columbus area with their business marketplace offerings and employee benefit strategies. They are now joining forces to provide an even more robust set of services to the community. In addition to being the largest broker in Ohio, USI provides the best services in employee benefits in all 50 states with over 200 offices.

USI's unrivaled insurance expertise and customer service combined with the trust and respect of the Columbus Chamber of Commerce have produced a comprehensive health care solution for mid-size employers.

Virtually all large companies are partially self-funded or self-fund. Although midsize companies may want to self-fund, often the financial exposure and unpredictability keeps this proven risk management strategy just out of their reach.

THE MISSING LINK: CCHA is offering a partially self-funded insurance program that utilizes Berkley Accident and Health's Captive Concept. Group captives enable employers to self-fund in a way that replicates the size, security and stability of a single larger employer with thousands of lives. CCHA was designed specifically for midsize companies facing this challenge. **We can deliver an immediate reduction in insurance costs while reducing long term trend!**

Columbus Chamber of Commerce

At the Columbus Chamber, we serve the Central Ohio business community as a strategic partner engaged in helping our Member businesses advance their key organizational initiatives and priorities.
